Regret

Blood dripped down my hands, trickling off of my fingers and splashing down onto the old, creaky floor. I hummed to myself, casually pacing back and forth. I retrieved my knife from his back, wiping it off on my sweater. That son of a bitch wouldn't be around to rip me off and steal the money my records made anymore.

Yet, I wasn't truly satisfied. The reality of what I had done hit me suddenly. I was a murderer, a killer, and a cold-blooded one at that. I had killed the only friend that I had ever known and trusted.
